

# One **source** for your everything

A centralised procurement marketplace built for multi-site organisations who want to significantly improve their margins. Eversource connects your people to your suppliers, giving Head Office complete visibility, helping your teams buy better, and eliminating the administrative burden. You'll love the compliance. Your team will love the experience.

Eversource Marketplace connects all your suppliers across every category - enabling single checkout across multiple vendors, automating approval workflows, and processing invoices amplified by AI.

Trusted by leading industry leaders across Asia Pacific and Europe, and purpose-built for multi-site hotel operations where procurement needs to work as hard as the people serving guests.

## The Eversource Advantage

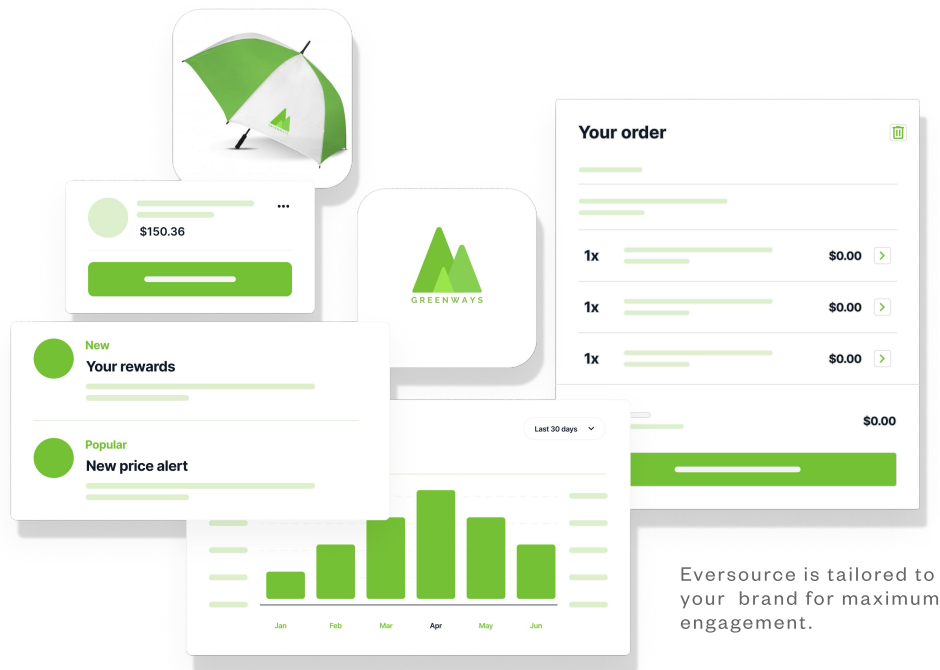

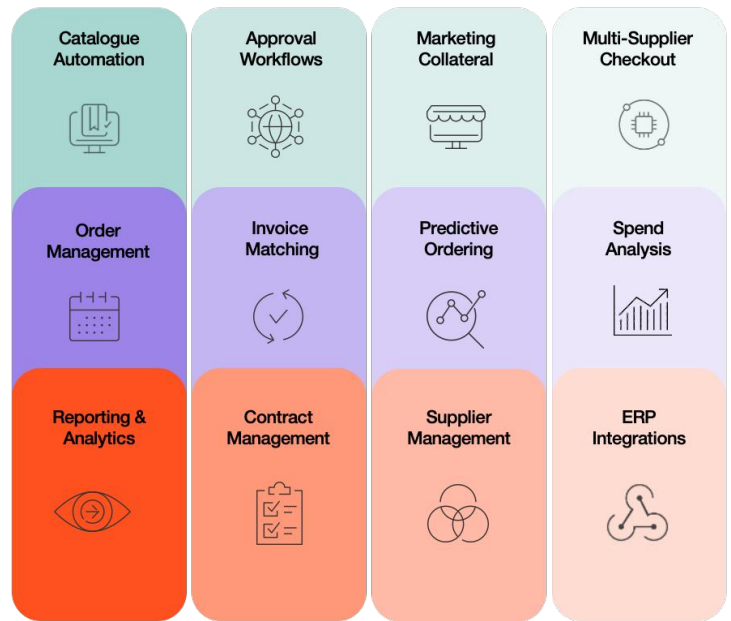

- **Streamlined Compliance:** Finally see who's buying what (and from whom) across your entire network. No more rogue purchases or mystery invoices—just happy suppliers, consistent brand standards, and negotiating power.
- **AI Invoice Matching:** Eversource Marketplace delivers 3-way invoice matching, AI-driven data analysis, and instant price comparisons - giving you 100% visibility across all supplier invoices.
- **Tailored to your Business:** We'll configure Eversource around your needs, workflows, and brand experience. The result? Higher adoption rates, smoother transitions, and a procurement system that feels like it was built just for you.
- **Visibility and Analysis:** Capturing a wealth of data, reports and dashboard displays, plus channelling relevant information to other systems.
- **You're in Control:** Connect suppliers your way, empowering you to make changes, reduce risk within your supply chain.
- **Integrity-Driven Solutions:** Our personalised service ensures genuine, robust, and future-proofed solutions that yield quantifiable results.

# Build Your Modular Solution

Eversource is a modular, AI-native suite configured precisely to your organisation, your brand, your workflows, your approval structures. Because you only pay for what you use, the system is more intuitive for staff and more cost-effective to run. Add modules as your needs grow.

One source for all your procurement categories; food and beverage, packaging, uniforms, marketing collateral, kitchen equipment, and contracted services. Empower your teams with approved supplier catalogues, AI-assisted workflows, and real-time ordering tools.

Replacing multiple spreadsheets and disconnected applications with one intelligent platform – whilst integrating with your core finance or ERP system.

# Measurable Results, Real Value

Eversource delivers centralised procurement with tangible ROI. Improving uptake from preferred suppliers at negotiated prices, increasing collective buying power leading to improved margins across your network.

In a sector where all operational spend impacts margins, our customers consistently achieve significant cost reductions, not through cutting corners, but through buying better, with complete visibility and control.

To maximise value, our simple pricing includes unlimited users and no extra supplier or transaction fees.

Here's what our customers typically achieve:

- Significantly reduced time spent ordering paying suppliers
- Improved supplier savings through real-time price comparisons
- 100% invoice processing with automated matching
- 100% visibility into user spend with suppliers, down to the product level

## Trusted by leading businesses

## Why Eversource

Through innovation and people-first values, Eversource empowers the way care organisations operate with supplier networks.

Built AI-native from the ground up, not AI as an afterthought, Eversource helps organisations gain complete spend visibility, buy better across every category, and give time back to the people who matter most.

*"Deploying Eversource across our network of 150 hotels in Australia was seamless. Their commitment to personal service has transformed them from a mere software provider into the foundation of our procurement strategy. We discovered Eversource through a referral, and I would now recommend them to others."*

**Danielle Schembri**  
Choice Hotels Procurement Manager

*We worked with Eversource on a marketplace, connect suppliers with 1500 members. It has to be one of the smoothest projects I have worked on and this was due to open, clear communication, calm and helpful skilled staff, a willingness to listen, they went above and beyond to accommodate our needs. Would highly recommend.*

**Stacey Neale**  
MTA Marketing Manager

## Implementation made easy

Eversource solutions are built on deep industry experience, combining a genuine understanding of your operational challenges with proven, future-proofed technology. Easy to use, flexible to configure, and designed to drive adoption from day one — including by store staff who are not procurement professionals. Our team is a valuable extension of yours.

We offer more than software. We provide a transformative partnership. Configured to your procurement workflows, your supplier agreements, and your compliance requirements. From implementation through to ongoing success.

When you choose Eversource, you're choosing innovation, integrity, and a team dedicated to helping you achieve measurable results, so your organisation can focus on what matters most: the customers you serve.
